

SLIDE 1

SCIF Continuity Command

Downtime prevention and rapid-response layer for secure projects.

Minor failures cause major secure-site downtime

- Coordination gaps
- Late sequencing errors
- No structured rapid-response loop

SLIDE 3 • SOLUTION

Continuity operations package

- 24-hour cleared bench activation
- Preflight readiness checks
- Weekly risk + escalation map

Revenue

- Monthly continuity retainer
- Incident-response premium
- Quarterly readiness audits

SLIDE 5 · WHY THIS WORKS

Portfolio synergy

Combines ClearedConnect execution capacity with ShieldSpec scope rigor to monetize reliability outcomes.

SLIDE 6 • ASK

Pilot expansion

Launch 30-day pilot, prove downtime reduction, convert to multi-site retainer.
