

ShieldSpec Preflight QA Sprint

Fixed-scope 5-business-day ICD-705 package readiness triage

Support + Coordination Service

Kickoff in 24 Hours

Pilot Pricing

What This Solves

Teams lose weeks from preventable package churn: missing artifacts, inconsistent references, and late-stage gap discovery. This sprint catches issues early and provides an owner-assigned fix path before another review cycle.

Deliverables

- Artifact completeness review
- Cross-reference consistency scan
- Submission readiness score (0-100)
- Prioritized remediation plan with owners
- 30-minute handoff briefing

Timeline & SLA

- Kickoff within 24 hours of intake
- Initial findings by Business Day 2
- Final readout by Business Day 5
- Same-business-day response during sprint

Pilot Pricing

Starter Triage

\$3,500

Single package, moderate complexity

Complex Triage

\$6,500

Multi-stream / high complexity package

Monthly QA Retainer

\$4,000-\$8,000 / month

For ongoing submissions and recurring readiness checks

Compliance-Safe Boundaries

- We provide preflight QA support and coordination guidance.
- We do not grant approvals, certifications, or authority determinations.
- Final submission and authority interactions remain with client-designated stakeholders.

Call to Action: Book a 20-minute Preflight Fit Call to confirm scope tier and kickoff path.
