AVO

Accreditation velocity service for SCIF build/upgrade teams.

Accreditation drag delays revenue and delivery

- Package prep bottlenecks
- Artifact-chasing chaos
- Authority coordination friction

2-week accreditation sprint

- Readiness diagnostic
- Artifact rescue workflow
- Authority-ready handoff package

Revenue

- Fixed sprint fees
- Maintenance retainers
- Portfolio support contracts

Fast wedge, deep moat

High-urgency pain, strong trust barriers, and direct adjacency to current ventures.

Near-term milestones

Book 5 discovery calls, close 1 paid pilot, publish repeatable sprint playbook.

Sensitive information protection is core to delivery

- Emails, blueprints, and package artifacts handled under strict confidentiality
- Need-to-know coordination and least-privilege access handling
- No external sharing without explicit client authorization
